**DETAILED ACTION**

1. Claims 1-36 are pending.
2. Amendment filed 06/30/2006 has been received and considered.

***Allowable Subject Matter***

3. Claims 1-36 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art substantially teaches Applicant's invention, as put forth in the previous action, however, Applicant's have amended each of the independent claims 1, 22, and 25 to include the following (or similar) limitation, "establishing at least one type of information object as an authoritative copy object that is not to be released by a trusted third-party repository of information objects". Stiles (US 5594863 A) teaches keeping a single authoritative copy of data, but fails to teach that it cannot be released by a trusted third-party repository. Therefore the prior art fails to teach, "establishing at least one type of information object as an authoritative copy object that is not to be released by a trusted third-party repository of information objects". It is also understood that the authoritative copy can be transferred between multiple trusted third-party repositories as disclosed

in new claim 34. Furthermore, Applicant's arguments submitted on 06/30/2006 with respect to the rejections made under 35 USC 112, first paragraph are persuasive and are therefore withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
